Journal of AIR TRANSPORT MANAGEMENT

Index to Volume 2

March, June, September/December 1995

Articles–titles

A productivity comparison of the world's major airlines *Tae Hoon Oum* and *Chunyan Yu* **2**(3/4) 181–195

A retrospective on the reinvention of international civil air transport economic regulation 1994–2004 *Louis Gialloreto* **2**(1) 17–23

A policy-sensitive traffic forecasting model for Schiphol Airport *David J Ashley, Paul Hanson and J Veldhuis* **2**(2) 89–97

Airports and economic regeneration *John A W Robertson* **2**(2) 81–88

An urge to merge? *Jaap G de Wit* **2**(3/4) 173–180

Commercializing and restructuring air traffic control: a review of the experiences and issues involved *Arnab Majumdar* **2**(2) 111–122

Competitive fare and frequency effects in airport market share modeling *Francois J Cohas, Peter P Belobaba and Robert W Simpson* **2**(1) 33–45

Contractual aspects of transacting in slots in the United States *Sabine J. Langner* **2**(3/4) 151–161

Management of multi-airport systems. A development strategy *Richard de Neufville* **2**(2) 99–110

Modeling aircraft repair turntime. Simulation supports maintenance marketing efforts *Richard Cobb* **2**(1) 25–32

Regulation of commercialized state-owned enterprises : case study of South African airports and air traffic and navigation services. *Victor Prins* and *Paul Lombard* **2**(3/4) 163–171

Short haul business travel in the European Union: a segmentation profile *Keith J Mason* and *Richard Gray* **2**(3/4) 197–205

Strategic responses of charter airlines to Single Market integration *Andrew Lobbenberg* **2**(2) 67–80

The future of international air transport regulation *Chris Lyle* **2**(1) 3–10

The production economics of a very large civil aircraft *David Starkie and Simon Ellis* **2**(1) 11–16

Articles–authors

Ashley, David J, Hanson, Paul and Veldhuis, J A policy-sensitive traffic forecasting model for Schiphol Airport **2**(2) 89–97

Cobb, Richard Modeling aircraft repair turntime. Simulation supports maintenance marketing efforts **2**(1) 25–32

Cohas, Francois J, Belobaba Peter P and *Simpson, Robert W* Competitive fare and frequency effects in airport market share modeling **2**(1) 33–45

Gialloreto, Louis A retrospective on the reinvention of international civil air transport economic regulation 1994–2004 **2**(1) 17–23

Langner, Sabine J Contractual aspects of transacting in slots in the United States **2**(3/4) 151–161

Lobbenberg, Andrew Strategic responses of charter airlines to Single Market integration **2**(2) 67–80

Lyle, Chris The future of international air transport regulation **2**(1) 3–10

Majumdar, Arnab Commercializing and restructuring air traffic control: a review of the experience and issues involved **2**(2) 111–122

Mason, Keith J and *Gray, Richard* Short haul business travel in the European Union: a segmentation profile **2**(3/4) 197–205

de Neufville, Richard Management of multi-airport systems. A development strategy **2**(2) 99–110

Oum, Tae Hoon and *Yu, Chunyan* A productivity comparison of the world's major airlines **2**(3/4) 181–195

Prins, Victor and *Lombard, Paul* Regulation of commercialized state-owned enterprises : case study of South African airports and air traffic and navigation services **2**(3/4) 163–171

Robertson, John A W Airports and economic regeneration **2**(2) 81–88

Starkie, David and *Ellis, Simon* The production economics of a very large civil aircraft **2**(1) 11–16

de Wit, Jaap G An urge to merge? **2**(3/4) 173–180

Regulatory update

Air transport and the General Agreement on Trade in Services (GATS) *Richard Smithies* **2**(2) 123–126

Viewpoints

Code-sharing: a summary of the German Study *Stefan Beyhoff* **2**(2) 127–129

International airline alliances. An analysis of code-sharing's impact on airlines and consumers *Timothy F Hannegan* and *Francis P Mulvey* **2**(2) 131–137
